

SUPPLEMENTAL GOVERNMENT TERMS AND CONDITIONS

FOR PURCHASE ORDERS AND SUBCONTRACTS

1. Definitions

For purposes of this Purchase Order and these Supplemental Government Terms and Conditions, the following terms shall have the meanings set forth below:

“Agreement” means the Purchase Order, together with all documents incorporated by reference, including applicable FAR, DFARS, and agency supplemental clauses.

“Applicability” means the determination that a FAR, DFARS, agency supplemental, DPAS, or other Government requirement applies to a specific Purchase Order based on the Purchase Order, the applicable Prime Contract or higher-tier contract, applicable law or regulation, the nature and classification of the supplies or services, dollar thresholds, and the requirement’s stated conditions of applicability. The clause matrix in Appendix A is a selection and reference aid only and does not independently make a clause applicable to a Purchase Order.

“Applicable Law” means all applicable federal, state, and local laws, statutes, regulations, executive orders, ordinances, and governmental requirements, including applicable provisions of the FAR, DFARS, and agency supplements incorporated into this Purchase Order.

“Buyer” means IPS Custom Automation, together with its successors, assigns, and authorized representatives.

“Commercial Product, Commercial Service, and Commercially Available Off-the-Shelf (COTS) Item” shall have the meanings assigned to those terms in FAR 2.101, as amended from time to time.

“Contract Documents” means the Purchase Order, these Supplemental Government Terms and Conditions, all appendices, exhibits, attachments, specifications, drawings, Statements of Work, amendments, modifications, and any other documents expressly incorporated by reference into the Purchase Order.

“Clause Precedence” means that the Purchase Order and any Purchase Order-specific FAR/DFARS applicability schedule control the identification of requirements applicable to that Purchase Order. Appendix A is a selection/reference matrix and does not independently expand the Seller’s obligations. Mandatory Federal law or regulation controls to the extent it cannot lawfully be varied by the Purchase Order.

“Deliverables” means all products, reports, drawings, manuals, software, documentation, technical data, certifications, and other items required to be delivered to Buyer under the Purchase Order.

“DFARS” means the Defense Federal Acquisition Regulation Supplement (Title 48, Chapter 2 of the Code of Federal Regulations), as amended.

“FAR” means the Federal Acquisition Regulation (Title 48, Chapter 1 of the Code of Federal Regulations), as amended.

“Goods” means all products, materials, supplies, equipment, parts, assemblies, components, software furnished as a deliverable, documentation, reports, data, and all other items required to be furnished by Seller under the Purchase Order, including associated packaging, labeling, manuals, certifications, warranties, and any other items required by the Purchase Order, specifications, drawings, Statement of Work, or other Contract Documents.

“Government” means the United States Government, including any executive agency, department, military department, or other governmental entity identified in the applicable Prime Contract.

“Government Property” means all property owned, leased, or furnished by the United States Government or Buyer for use in performing the Purchase Order, as defined in applicable FAR and DFARS clauses.

“Prime Contract” means the contract between Buyer (or Buyer's customer) and the United States Government or an upper-tier contractor under which this Purchase Order is issued.

“Purchase Order ("PO")” means the written purchase order issued by Buyer, including its face sheet, schedules, exhibits, attachments, statements of work, specifications, drawings, amendments, modifications, and these Supplemental Government Terms and Conditions, but only to the extent each document or requirement is expressly incorporated or made applicable by the Purchase Order.

“Seller” means the individual, company, partnership, corporation, or other legal entity identified on the Purchase Order that agrees to furnish the supplies, materials, products, or services described therein.

“Services” means all labor, engineering, technical, professional, construction, installation, repair, maintenance, inspection, testing, consulting, training, or other services required to be performed by Seller under the Purchase Order.

“Subcontract” means this Purchase Order issued by Buyer to Seller in support of a Prime Contract with the United States Government. References within incorporated FAR and DFARS clauses to "Contract" shall mean this Purchase Order unless the context clearly requires otherwise.

“Work” means all products, services, deliverables, labor, materials, and obligations to be provided or performed by Seller pursuant to the Purchase Order.

2. Incorporation of FAR AND DFARS Clauses

The FAR, DFARS, agency supplemental, and other Government requirements expressly identified as applicable in the Purchase Order or a Purchase Order-specific clause schedule are incorporated by reference to the extent required by their terms, the applicable Prime Contract or higher-tier contract, and applicable law or regulation. Appendix A is a clause-selection and reference matrix and does not, by itself, incorporate every listed clause into every Purchase Order. Where necessary to give effect to an incorporated clause in a subcontract relationship, references to

“Contractor” shall mean Seller, references to “Government” or “Contracting Officer” shall be interpreted appropriately, and references to “Contract” shall mean this Purchase Order except where the context clearly requires otherwise.

3. FAR and DFARS Representations and Certifications

3.1 Seller Representations and Certifications. Seller represents and warrants that all representations, certifications, disclosures, and assurances required by the Federal Acquisition Regulation ("FAR"), the Defense Federal Acquisition Regulation Supplement ("DFARS"), and any applicable agency supplemental regulations that are applicable to this Purchase Order are true, complete, current, and accurate as of the date of acceptance of this Purchase Order and shall remain accurate throughout performance of the Work.

3.2 Continuing Obligation. Seller shall promptly notify Buyer in writing of any change in circumstances that renders any representation, certification, or disclosure inaccurate, incomplete, or no longer valid during the performance of this Purchase Order.

3.3 Compliance with Government Requirements. Seller agrees to comply with all applicable FAR, DFARS, and agency supplemental regulations incorporated into this Purchase Order. Seller shall timely provide all certifications, representations, disclosures, documentation, and supporting information reasonably requested by Buyer to enable Buyer to satisfy its obligations under its Prime Contract with the United States Government.

3.4 Flow-Down Requirements. To the extent required by applicable law, regulation, or the Prime Contract, Seller shall execute, update, or renew all certifications and representations required of subcontractors and shall cooperate fully with Buyer in responding to requests from the United States Government, contracting officers, auditors, or other authorized representatives.

3.5 Responsibility Determinations. Seller represents that it is not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in Federal Government contracts unless previously disclosed to Buyer in writing. Seller shall immediately notify Buyer if its eligibility status changes during performance of this Purchase Order.

3.6 Accuracy of Information. Seller acknowledges that Buyer is entitled to rely upon the accuracy and completeness of Seller's representations and certifications in performing its obligations under the applicable Prime Contract. Any material misrepresentation, omission, or failure to disclose required information shall constitute a material breach of this Purchase Order and may result in termination for default, withholding of payment, recovery of damages, or any other remedy available under this Purchase Order or applicable law.

3.7 Survival. Seller's obligations under this Section shall survive final payment, completion, termination, or expiration of this Purchase Order to the extent necessary to support audits, investigations, claims, or other Government or Buyer requirements arising from Seller's performance.

4. Commercial Products, Commercial Services, and Non-Commercial Items

4.1 Classification of Supplies and Services. Seller shall identify whether the supplies or services provided under this Purchase Order qualify as Commercial Products, Commercial Services, or Commercially Available Off-the-Shelf (COTS) Items, as those terms are defined in FAR 2.101. Any supplies or services that do not meet the applicable FAR definitions shall be considered non-commercial for purposes of this Purchase Order.

4.2 Seller Representation. Seller represents and warrants that any item or service identified as a Commercial Product, Commercial Service, or COTS Item fully satisfies the applicable definitions contained in FAR 2.101. Seller shall maintain documentation supporting such classification and shall provide such documentation to Buyer upon request.

4.3 Applicability of FAR and DFARS Clauses. The applicability of FAR, DFARS, and agency supplemental clauses incorporated into this Purchase Order shall be determined based upon the classification of the products or services being furnished, the type of subcontract, the dollar value of the Purchase Order, and any other conditions specified within the applicable clause or the Prime Contract.

4.4 Mixed Procurements. Where this Purchase Order includes a combination of Commercial Products, Commercial Services, COTS Items, and non-commercial supplies or services, Seller shall comply with all FAR, DFARS, and agency supplemental clauses applicable to each portion of the Work. Buyer reserves the right to identify specific flow-down requirements applicable to individual Contract Line Item Numbers (CLINs), Subcontract Line Item Numbers (SLINs), deliverables, or Statements of Work.

4.5 Buyer's Right to Review. Buyer may review Seller's commerciality determinations at any time during performance of this Purchase Order. Seller shall promptly provide any information reasonably requested by Buyer to support the commercial classification of any product or service furnished under this Purchase Order.

4.6 Changes in Classification. If Seller becomes aware that any Commercial Product, Commercial Service, or COTS Item no longer satisfies the applicable FAR definition, Seller shall immediately notify Buyer in writing. Buyer may modify this Purchase Order to incorporate any additional FAR, DFARS, or agency supplemental clauses made applicable by such change in classification.

4.7 Non-Commercial Items. Unless otherwise specified in the Purchase Order, all non-commercial supplies and services furnished under this Purchase Order shall be subject to the full set of applicable FAR, DFARS, and agency supplemental clauses required by law, regulation, or the applicable Prime Contract.

4.8 Seller Cooperation. Seller shall cooperate fully with Buyer in supporting Government audits, commercial item determinations, purchasing system reviews, Contractor Purchasing System Reviews (CPSRs), Defense Contract Audit Agency (DCAA) audits, Defense Contract

Management Agency (DCMA) reviews, or any other Government inquiry relating to the classification of products or services furnished under this Purchase Order.

4.9 Precedence. In the event of any inconsistency between Seller's commercial item designation and the requirements of the Prime Contract or applicable procurement regulations, the requirements of the Prime Contract and applicable law shall govern.

5. Defense Priorities and Allocations System (DPAS) Rating

5.1 DPAS Rating. When the face of the Purchase Order identifies a DPAS priority rating, the Purchase Order is a rated order subject to the Defense Priorities and Allocations System (DPAS), 15 C.F.R. Part 700, and the rating stated on the Purchase Order shall control. If no DPAS rating is stated on the Purchase Order, this Section does not independently assign a rating.

5.2 Seller Acceptance. When a DPAS rating is stated on the Purchase Order, Seller shall accept or reject the rated order in accordance with applicable DPAS requirements and, upon acceptance, shall comply with the applicable priority performance, scheduling, and acceptance requirements prescribed by 15 C.F.R. Part 700.

5.3 Priority Performance. Seller shall schedule, prioritize, and perform work required under this Purchase Order in accordance with the assigned DPAS rating. Seller shall provide preferential treatment to this Purchase Order over unrated orders as required by applicable regulations, except where a higher-rated order or applicable law requires otherwise.

5.4 Mandatory Flow-Down. Seller shall place the applicable DPAS rating on all purchase orders, subcontracts, and supplier orders issued in support of this Purchase Order when required by 15 C.F.R. Part 700. Seller shall ensure that all lower-tier suppliers comply with applicable DPAS requirements.

5.5 Delays and Inability to Perform. Seller shall immediately notify Buyer in writing upon becoming aware of any circumstance that may delay performance, prevent timely delivery, or otherwise affect Seller's ability to satisfy the delivery requirements of this Purchase Order.

Such notice shall include:

- a. The reason for the delay;
- b. The anticipated duration of the delay;
- c. The impact on delivery schedules; and
- d. Seller's proposed corrective actions.

Notification shall not relieve Seller of its contractual obligations unless otherwise agreed to in writing by Buyer.

5.6 Government Direction. Seller shall cooperate with Buyer and the United States Government regarding any requests, directives, investigations, or communications relating to DPAS requirements, production priorities, delivery schedules, or allocation of materials and resources.

5.7 Compliance with Applicable Law. Seller shall comply with all applicable provisions of the Defense Production Act of 1950, as amended, Executive Order 13603 (or any successor order), and the Defense Priorities and Allocations System regulations contained in 15 C.F.R. Part 700, as amended.

5.8 Conflict with Other Orders. In the event Seller receives multiple rated orders, Seller shall schedule performance in accordance with the priority hierarchy established by applicable DPAS regulations. Seller shall promptly notify Buyer if compliance with another rated order affects Seller's ability to perform this Purchase Order.

5.9 Seller Responsibility. Seller's failure to comply with applicable DPAS requirements or to provide timely notice of any anticipated delay may constitute a material breach of this Purchase Order and may entitle Buyer to exercise any rights or remedies available under this Purchase Order or applicable law.

5.10 Survival. The obligations contained in this Section shall survive completion, termination, or expiration of this Purchase Order to the extent necessary to satisfy any Government inquiry, audit, investigation, or contractual obligation relating to DPAS compliance.

6. FAR, DFARS, and Agency Clause Applicability

Appendix A is a standard clause-selection and reference matrix for IPS Government-supported procurements. A clause listed in Appendix A applies to a specific Purchase Order only when the Purchase Order, a Purchase Order-specific applicability schedule, the applicable Prime Contract or higher-tier contract, applicable law or regulation, or the clause's own mandatory flowdown terms make that clause applicable. Listing a clause in Appendix A does not independently incorporate that clause into every Purchase Order.

The applicability column provides general selection criteria for Contracts review and is not a substitute for a Purchase Order-specific determination. Where multiple conditions are identified, all relevant conditions shall be evaluated. If the Purchase Order expressly identifies a clause as APPLIES or DOES NOT APPLY, that Purchase Order-specific determination controls over a general designation in this matrix, except to the extent a mandatory law or regulation independently requires application. The following legend identifies the abbreviations used throughout the clause matrix.

CONTROL NOTE: The Purchase Order-specific clause schedule is the contractual record of the FAR/DFARS requirements selected for that procurement. Internal compliance checklists may document the basis for the selection but are

not contractual attachments unless expressly incorporated by the Purchase Order.

Appendix A	
TABLE 1-Applicability Legend	
Abbreviation	Description

**52.204-21 BASIC SAFEGUARDING OF COVERED CONTRACTOR NOV/2021
INFORMATION SYSTEMS**

(a) Definitions. As used in this clause--

"Covered contractor information system" means an information system that is owned or operated by a contractor that processes, stores, or transmits Federal contract information.

"Federal contract information" means information, not intended for public release, that is provided by or generated for the Government under a contract to develop or deliver a product or service to the

Government, but not including information provided by the Government to the public (such as on public Web sites) or simple transactional information, such as necessary to process payments.

"Information" means any communication or representation of knowledge such as facts, data, or opinions, in any medium or form, including textual, numerical, graphic, cartographic, narrative, or audiovisual (Committee on National Security Systems Instruction (CNSSI) 4009).

"Information system" means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information (44 U.S.C. 3502).

"Safeguarding" means measures or controls that are prescribed to protect information systems.

(b) Safeguarding requirements and procedures.

(1) The Contractor shall apply the following basic safeguarding requirements and procedures to protect covered contractor information systems. Requirements and procedures for basic safeguarding of covered contractor information systems shall include, at a minimum, the following security controls: Limit information system access to authorized users, processes acting on behalf of authorized users, or devices (including other information systems).

(i) Limit information system access to the types of transactions and functions that authorized users are permitted to execute.

(ii) Verify and control/limit connections to and use of external information systems.

(iii) Control information posted or processed on publicly accessible information systems.

(iv) Identify information system users, processes acting on behalf of users, or devices.

(v) Authenticate (or verify) the identities of those users, processes, or devices, as a prerequisite to allowing access to organizational information systems.

(vi) Sanitize or destroy information system media containing Federal Contract Information before disposal or release for reuse.

(vii) Limit physical access to organizational information systems, equipment, and the respective operating environments to authorized individuals.

(ix) Escort visitors and monitor visitor activity; maintain audit logs of physical access; and control and manage physical access devices.

(x) Monitor, control, and protect organizational communications (i.e., information transmitted or received by organizational information systems) at the external boundaries and key internal boundaries of the information systems.

(xi) Implement subnetworks for publicly accessible system components that are physically or logically separated from internal networks.

(xii) Identify, report, and correct information and information system flaws in a timely manner.

(xiii) Provide protection from malicious code at appropriate locations within organizational information systems.

(xiv) Update malicious code protection mechanisms when new releases are available.

(xv) Perform periodic scans of the information system and real-time scans of files from external sources as files are downloaded, opened, or executed.

(2) Other requirements. This clause does not relieve the Contractor of any other specific safeguarding requirements specified by Federal agencies and departments relating to covered contractor information systems generally or other Federal safeguarding requirements for controlled unclassified information (CUI) as established by Executive Order 13556.

Subcontracts. The Contractor shall include the substance of this clause, including this paragraph (c), in subcontracts under this contract (including subcontracts for the acquisition of commercial products or commercial services, other than commercially available off-the-shelf items), in which the subcontractor may have Federal contract information residing in or transiting through its information system.

(End of clause)

52.204-25 PROHIBITION ON CONTRACTING FOR CERTAIN NOV/2021 TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT

(a) Definitions. As used in this clause-- (1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities);

"Backhaul" means intermediate links between the core network, or backbone network, and the small sub-networks at the edge of the network (e.g., connecting cell phones/towers to the core telephone network). Backhaul can be wireless (e.g., microwave) or wired (e.g., fiber optic, coaxial cable, Ethernet).

"Covered foreign country" means The Peoples Republic of China. "Covered telecommunications equipment or services" means—

(1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities);

(2) For the purpose of public safety, security of Government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou

Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);

(3) Telecommunications or video surveillance services provided by such entities or using such equipment; or

(4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of

Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

"Critical technology" means--

(1) Defense articles or defense services included on the United States Munitions List set forth in the International Traffic in Arms Regulations under subchapter M of chapter I of title 22, Code of Federal Regulations;

(2) Items included on the Commerce Control List set forth in Supplement No. 1 to part 774 of the Export Administration Regulations under subchapter C of chapter VII of title 15, Code of Federal Regulations, and controlled- Pursuant to multilateral regimes, including for reasons relating to national security, chemical and biological weapons proliferation, nuclear nonproliferation, or missile technology; or

For reasons relating to regional stability or surreptitious listening;

(3) Specially designed and prepared nuclear equipment, parts and components, materials, software, and technology covered by part 810 of title 10, Code of Federal Regulations (relating to assistance to foreign atomic energy activities);

(4) Nuclear facilities, equipment, and material covered by part 110 of title 10, Code of Federal Regulations (relating to export and import of nuclear equipment and material);

(5) Select agents and toxins covered by part 331 of title 7, Code of Federal Regulations, part 121 of title 9 of such Code, or part

73 of title 42 of such Code; or

(6) Emerging and foundational technologies controlled pursuant to section 1758 of the Export Control Reform Act of 2018 (50 U.S.C. 4817).

"Interconnection arrangements" means arrangements governing the physical connection of two or more networks to allow the use of another's network to hand off traffic where it is ultimately delivered (e.g., connection of a customer of telephone provider A to a customer of telephone company B) or sharing data and other information resources.

"Reasonable inquiry" means an inquiry designed to uncover any information in the entity's possession about the identity of the producer or provider of covered telecommunications equipment or services used by the entity that excludes the need to include an internal or third-party audit.

"Roaming" means cellular communications services (e.g., voice, video, data) received from a visited network when unable to connect to the facilities of the home network either because signal coverage is too weak or because traffic is too high.

"Substantial or essential component" means any component necessary for the proper function or performance of a piece of equipment, system, or service.

(b) Prohibition.

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115- 232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. The Contractor is prohibited from providing to the Government any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract, or extending or renewing a contract, with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract.

(c) Exceptions. This clause does not prohibit contractors from providing—

(1) A service that connects to the facilities of a third-party, such as backhaul, roaming, or inter-connection arrangements; or

(2) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(d) Reporting requirement.

(1) In the event the Contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, or the Contractor is notified of such by a subcontractor at any tier or by any other source, the Contractor shall report the information in paragraph (d)(2) of this clause to the Contracting Officer, unless elsewhere in this contract are established procedures for reporting the information; in the case of the Department of Defense, the Contractor shall report to the website at <https://dibnet.dod.mil> . For indefinite delivery contracts, the Contractor shall report to the Contracting Officer for the indefinite delivery contract and the Contracting Officer(s) for any affected order or, in the case of the Department of

Defense, identify both the indefinite delivery contract and any affected orders in the report provided at <https://dibnet.dod.mil> .

(2) The Contractor shall report the following information pursuant to paragraph (d)(1) of this clause:

(i) Within one business day from the date of such identification or notification: The contract number; the order number(s), if applicable; supplier name; supplier unique entity identifier (if known); supplier Commercial and Government Entity (CAGE) code (if known); brand; model number (original equipment manufacturer number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended.

(ii) Within 10 business days of submitting the information in paragraph (d)(2)(i) of this clause: Any further available information about mitigation actions undertaken or recommended. In addition, the Contractor shall describe the efforts it undertook to prevent use or submission of covered telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services.

(e) Subcontracts. The Contractor shall insert the substance of this clause, including this paragraph (e) and excluding paragraph (b)(2), in all subcontracts and other contractual instruments, including subcontracts for the acquisition of commercial products or commercial services.

(End of clause)

52.204-27 Prohibition on a ByteDance Covered Application (Jun 2023) JUN/2023

Definitions. As used in this clause

Covered application means the social networking service TikTok or any successor application or service developed or provided by ByteDance Limited or an entity owned by ByteDance Limited.

Information technology, as defined in 40 U.S.C. 11101(6)

(1) Means any equipment or interconnected system or subsystem of equipment, used in the automatic acquisition, storage, analysis, evaluation, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information by the executive agency, if the equipment is used by the executive agency directly or is used by a contractor under a contract with the executive agency that requires the use Of

(i) that equipment; or

(ii) Of that equipment to a significant extent in the performance of a service or the furnishing of a product;

(2) Includes computers, ancillary equipment (including imaging peripherals, input, output, and storage devices necessary for security and surveillance), peripheral equipment designed to be controlled by the central processing unit of a computer, software, firmware and similar procedures, services (including support services), and related resources; but

(3) Does not include any equipment acquired by a Federal contractor incidental to a Federal contract.

(b) Prohibition. Section 102 of Division R of the Consolidated Appropriations Act, 2023 (Pub. L. 117-328), the No TikTok on Government Devices Act, and its implementing guidance under Office of Management and Budget (OMB) Memorandum M-23-13, dated February 27, 2023, No TikTok on Government Devices Implementation Guidance, collectively prohibit the presence or use of a covered application on executive agency information technology, including certain equipment used by Federal contractors. The Contractor is prohibited from having or using a covered application on any information technology owned or managed by the Government, or on any information technology used or provided by the Contractor under this contract, including equipment provided by the Contractor's employees; however, this prohibition does not apply if the Contracting Officer provides written notification to the Contractor that an exception has been granted in accordance with OMB Memorandum M-23-13.

(c) Subcontracts. The Contractor shall insert the substance of this clause, including this paragraph (c), in all subcontracts, including subcontracts for the acquisition of commercial products or commercial services.

(End of clause)

52.222-36 EQUAL OPPORTUNITY FOR WORKERS WITH DISABILITIES JUN/2020

(a) Equal opportunity clause. The Contractor shall abide by the requirements of the equal opportunity clause at 41 CFR 60-741.5(a), as of March 24, 2014. This clause prohibits discrimination against qualified individuals on the basis of disability, and requires affirmative action by the Contractor to employ and advance in employment qualified individuals with disabilities.

(b) Subcontracts. The Contractor shall include the terms of this clause in every subcontract or purchase order in excess of the threshold specified in Federal Acquisition Regulation (FAR) 22.1408(a) on the date of subcontract award, unless exempted by rules, regulations, or orders of the Secretary, so that such provisions will be binding upon each subcontractor or vendor. The Contractor shall act as specified by the Director, Office of Federal Contract Compliance Programs of the U.S. Department of Labor, to enforce the terms, including action for noncompliance. Such necessary changes in language may be made as shall be appropriate to identify properly the parties and their undertakings.

(End of clause)

52.234-1 INDUSTRIAL RESOURCES DEVELOPED UNDER DEFENSE SEP/2016 PRODUCTION ACT TITLE III

(a) Definitions. Title III industrial resource means materials, services, processes, or manufacturing equipment (including the processes, technologies, and ancillary services for the use of such equipment) established or maintained under the authority of Title III, Defense Production Act (50 U.S.C. App. 2091-2093).
